

## **Resume - Andrew Mitchell**

Email: andrew.mitchell@example.com

Phone: +1-202-555-1290

### **Summary**

Highly motivated Machine Learning Engineer with strong experience in Python, data analysis, and model building. Skilled in creating ML pipelines and visualizing results using Matplotlib. Strong understanding of SQL queries and database operations.

### **Skills**

- Machine Learning
- Python
- Pandas
- Matplotlib
- NumPy
- SQL
- Scikit-learn
- Data Visualization
- Model Training & Evaluation

### **Experience**

Machine Learning Intern – TechNova Solutions (June 2023 – October 2023)

- Built ML models using scikit-learn for classification tasks.
- Analyzed datasets using Pandas and NumPy.
- Created data visualizations using Matplotlib.
- Performed SQL database queries to fetch training data.

### **Projects**

Spam Email Classifier

- Built and deployed a Naive Bayes classifier using Python.

- Evaluated model accuracy and visualized metrics.

## **Education**

B.Tech in Computer Science, XYZ University (2023)
